A B O U T

In the electronic music world it is easy to marry a style and fall into a label. However, there are artists whose career distances itself from simplification: Headbirds has been cultivating and producing a sound that does not allow to be hunted for twenty years.

Defined as a *rara avis*, Headbirds extracts the good vibes of house in their productions, intervening in them with electro syncopations and thus entering a timeless atmosphere that exudes the forcefulness of techno.

Their tracks are often played by great figures of world electronics such as Marcel Dettman, Laurent Garnier, Silvie Loto or Moxie. With 8 EPs released, the recent LP "Kulturhaus" and another album like ATZAR, Headbirds have performed their music at festivals, clubs and parties all over the planet, from Central Park in NY to the Maison du Moulin Rouge in Paris, as well as at Sónar in Hong Kong, Primavera Sound in Barcelona or Dropzone in Bangkok.

Watching their sets is a memorable experience.

13. HEADBIRDS | YPIW Series 0:00 / 1:33:47

That the return of Headbirds to the festival headlines and clubbers is a reality is known at Bajo Fondo and all of us who have been behind their outstanding return know it. Although I have known him for not so long, we have kept track of each other for a long time and, in the end, the coincidences have become a mutual support that transgresses any border between friendship and intellectual connection - to be more precise, has there ever been a border between the two? Our shared musical vocation and the level of empathy that we forged in September is not still intact because, in reality, it has not stopped growing (flying, paraphrasing the act performed by the birds of its stage name).

Daniel Guijarro (a.k.a. Headbirds) released a free EP yesterday, called *The Holy Look*, which uniquely encompasses tropical bass, UK funky, and hints of dubstep. A powerful and evolving bassline drives the Barcelonian's "Hungry Winds" production with help from the lively beat work, while scattered vocals and wild synth jabs wander through different octaves and filters without losing total control. And if this one does the trick for you, make sure to listen to and download the remainder of Headbirds' three-track EP after the jump.

DANIEL GUIJARRO, AKA HEADBIRDS, NOS PRESENTA EN EXCLUSIVA 'EL CAMPANARI'

Publicado en Rhythm Cult, 'Terance' EP verá la luz este viernes 31 de julio; todo un viaje emocional.

PAT QUINTEIRO | 27 JULY 2020

A **Daniel Guijarro** en esto de la música se le conoce como **Headbirds** o como **ATZAR.** A Daniel cuando no está haciendo música le gusta escaparse desde Cubelles (Barcelona) -desde nos habla-, con su familia en furgo, eso sí, sin olvidar su telescopio. Daniel ha encontrado junto a su pareja y a sus dos pequeños, una afición común, la astronomía. Juntos se evaden y crean sus propios universos.

A Daniel todo lo de la pandemia,- confiesa-, le está tocando muy adentro, y se siente escéptico con los políticos, escucha la diferentes opiniones de su entorno y siguen sin cuadrarle muchas de la cosas que están ocurriendo. Y es que tener hijos en medio de toda esta locura te hace ponerlos en primera línea de prioridades: que estén bien, que se sientan felices, que no falte trabajo en casa, que volvamos todos a vivir en paz... Aún así, dice que espera recordar de esta época *'la capacidad de reinvención y creatividad en materia de supervivencia que estamos desarrollando muchas personas. A pesar de todo, estoy muy agradecido de mi entorno y de las cosas bonitas que me ofrece la vida..'*

Headbirds

Si a Banyoles hi ha un músic prolífic i amb projecció internacional, no són els veterans Kitsch amb la seva dilatada carrera, ni l'ubic i talentós Ramon Prats amb les seves múltiples formacions, ni el mestre Saderra, les sardanes del qual sonen i sonaran a totes les places de Catalunya per molts anys, sinó Headbirds.

Sota aquest nom artístic reconegut en tota l'escena de música electrònica nacional i exterior, hi ha la figura de Dani Guijarro, nascut a Granollers el 1986 i banyolí d'adopció des del 1996. Les aparicions en públic de Headbirds no només sorprenen per quantitat, sinó per qualitat .

L'avalen actuacions a alguns dels millors locals del gènere d'arreu del món: Nova York, París, Londres, Berlín, Hong Kong, Bangkok o Moscow, així com festivals de música electrònica d'escala mundial: Sónar, Primavera Sound, All Tomorrow's Parties, ElectroSnow, Piknic Electronik, Mira, Boiler Room, Mutek, Eurosonic Noordeslag, Wavves Vienna o Bilbao BBK.

Masterclass Preparation of a Live Hardware by Headbirds. That's how it went

Daniel Guijarro , known artistically as **Headbirds** , explained to us in his last masterclass his configuration methodology and the work he carries out in his live shows with sequencers, synthesizers, effects and hardware drum machines.

Headbirds explained their production methods and techniques where the studio workflow merges with live rehearsals, turning the creative experience into a single thing and developing our live performance with their instruments.

headbirds biography

This Catalan **DJ and producer** has an international projection that has taken him, among others, to the Asian continent and to show his art at festivals such as ***Sónar*** **and *Mutek*** or in the famous ***Boiler Room*** . Additionally, **Headbirds** is a member of the group C156 and a contributing member of the El Sello netlabel.

He became known with "Dead Kingdom", *a track* that earned him recognition from the international press, and he has previously published two maxis "Macaw" and "The Holy Look", in addition to remixing artists such as Pyrenees, Guillamino and Fur Voice.

For the occasion we put together a special set in the facilities of our club **The Garage of The Bass Valley** , simulating the real action scenario of a live intervention of this type. The sound was through the Club's PA system, thus creating a space and a real live sound for the masterclass. The equipment that **Headbirds** used in this case was:

- **Akai MPC 5000 Sequencer / Sampler**

Audio process sequencing center and virtual orchestra director.

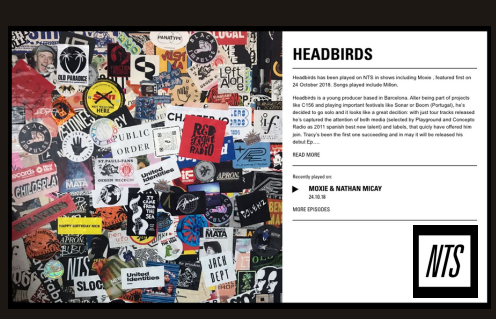

- **Dreadbox Erebus semi-modular synthesizer**

Small, versatile analog synthesizer with extensive modulation capabilities.

- **Korg Minilogue Polyphonic Synthesizer**

Polyphonic analog synthesizer with portable size and great versatility.

- **MFB Tanzbar Analog Drum Machine**

Headbirds has been played on NTS in shows including Moxie , featured first on 24 October 2018. Songs played include Million.

Headbirds is a young producer based in Barcelona. After being part of projects like C156 and playing important festivals like Sonar or Boom (Portugal), he's decided to go solo and it looks like a great decition: with just four tracks released he's captured the attention of both media (selected by Playground and Concepto Radio as 2011 spanish best new talent) and labels, that quickly have offered him join. Tracy's been the first one succeeding and in may it will be released his debut Ep. ...

El Primavera Sound Touring Party *recorre 11 ciudades durante 20 días y promete ser mucho más divertido que cualquier viaje en autobús que imagines. Si no nos crees, puedes verlo tú mismo en el reality que están haciendo.*

La dieta de un músico en carretera se parece mucho a la de un adolescente en un viaje de fin de curso, pero con un arsenal de antiácidos en la maleta. Sin embargo, siempre hay un listillo, una especie de sapientín, que se las apaña para alimentarse sano y equilibrado, con los mejores sabores locales. Un poco como Imanol Arias y Juan Echanove pero sin caer mal. En el Primavera Sound Touring Party, el que sabe encontrar las buenas delicias y manjares es Headbirds. Pero a veces también la caga. Escucha sus anécdotas:

NORUEGA

"El festival puso un catering espectacular a base de todo tipo de platos de salmón (cocinado, marinado, crudo en sushi...) todo muy bueno. De hecho creo que fue el mejor sushi que he comido. Hasta ese momento todo bien, pero siguiendo con querer probarlo todo, vi una bandeja con una especie de carne oscura, como negra. Por su aspecto y textura parecía ternera. La sorpresa vino al llevarme un trozo a la boca: tenía gusto a mar muy raro. Cuando pregunté me dijeron que era ballena. ¡Uf! De repente todo lo demás me sentó mal y el buen gusto de lo otro quedó eclipsado por la pobre ballena."

PORTUGAL

"Andaba dando vueltas por Valença en busca de un sitio típico donde poder comer algo bueno y no muy caro. Un señor me mandó a un restaurante con un aspecto "poco acogedor". Tomé mesa y al mirar la carta empecé a ver

Time Out diu

Headbirds és un dels grans noms de la nova electrònica de ball del país. En aquest cas, el terme 'electrònica de ball' no el fem servir com a perífrasi. Està justificat plenament perquè tots aquests nous productors practiquen alegrement la barreja d'estils sense prejudicis. Fa un parell d'anys encara hauríem dit que Headbrids era un projecte de bass music o de post-dubstep, però ara ni això ho afirmaríem amb seguretat. A la seva música els aires bass es difuminen amb house i techno, i els aromes old school combinen perfectament amb les tècniques de producció més actuals.

BARCELONA Txarango, Mishima and Headbirds perform this Sunday in New York's Central Park as part of the SummerStage Festival schedule. The concert is part of the Catalan Sounds on Tour program organized by the Ramon Llull Institute (IRL). Headbirds, stage name of producer Daniel Guijarro, will open the session at three in the afternoon. Mishima will perform at 3.45 pm, and after a new performance by Headbirds, Txarango will take the stage.

Piknic Electronik #9: Pau Roca, Headbirds, Pional & Joy Orbison

By

And with this, there will be nine Piknic Electronik that have taken place in Barcelona so far this summer. For the occasion - the most anticipated of the season on good2b -, we will have a luxury line-up headed by Pau Roca , one of the most powerful national DJs of the moment. Also known as Paul Stone, the Catalan is characterized by the amalgamation of sounds that range from experimental electronics reminiscent of the '90s, to old school house or techno.

A little later, the young producer Daniel Guijarro takes charge of his musical project Headbirds , to delight us with his mix of house, techno and bass. In addition to participating in Piknic Electronik, Guijarro is preparing a 12" for El Segell , Primavera Sound's new recording adventure. Next, the prolific creator Miguel Barros - one of our favorites of recent times -, better known as Pional , will liven up Sunday afternoon with his fusion of pop, house and hypnotic sounds. As a final touch, Joy Orbison will present its collection of elements of house, two-step, jungle, techno and dubstep that have given it so much success and popularity after publishing its first album, *Hyph Mngo* , in 2009 . Three hours of the British set. Almost nothing!

House and bass at Low Cost with Headbirds

Twittear

As you already know, this year marks the **5th anniversary of the Low Cost Festival** , although at this point I imagine that **few will be left to know** . The fact is that, obviously, we must welcome the five-year anniversary in style and hence the great **poster** that the nice people of the organization give us this year.

Today I came to talk to you, specifically, about Headbirds , who will come to the festival this year to strengthen their **solo project** . It was showing your face and singing: media **coverage** achieved and label **invitations achieved. And it seems that Dani Guijarro** does not lack anything (**bass** and **house** atmospheres with timeless, **surreal** environments that manage to make us move) to conquer the staff, so we leave ourselves in his hands for **JUST ONE MONTH** .

In short, another gem that we should not miss at the Low Cost Festival

Rhythm Cult announces Headbirds new album "Kulturhaus"

By **dubiks** - April 30, 2022

Rhythm Cult:

"Supporting the scene where you are based creates the strength that makes electronic music a powerful movement. It took over five years to seek out the innovative artist from Catalonia that captivated our minds, bodies and souls with his unique tracks, vast musical knowledge and distinctive taste in sonic exploration. That's when, in 2020, we released **Headbirds**' stunning 'Terances' EP on **Rhythm Cult**, a hybrid of refined deep house and acid-soaked Balearic sounds that rapidly became one of the label's best-selling EPs.
